Old Business:

Don Hundt Sr reported to the commission that we are still waiting on Clint Miller to schedule the Electric Company and the electrician for change over.

It was decided that the fire company will pay for the switch and the commission will look at paying for the most expensive components. The Commission will be getting quotes.

Fred Hundt reported that we have still not heard anything about grant. At this point no news is good news.

New Business:

There was no new business at this time.

Chiefs Comments:

Chief Hundt reported that we still have a couple of issues with Engine 12. The cylinder on the hydraulic ladder rack appears to have lost its stability as the back end of the ladder rack is not staying in the up position. The service center has been called, and they will provide the service as soon as the technicians are free from some out-of-service calls with other departments.

The service group for Fire Safety came to look at the ladder rack and a new cylinder will be ordered and installed.

Steve looked at the air leak that was discovered prior to last month's meeting. The leak was repaired and during the work an additional leak on the foot valve was found and fixed by the service center.

The new life jackets have been purchased and are now here.

Public Portion:

The meeting was opened to the public. There was nothing addressed to the commission. With no public input Ron Sutton Jr made the motion to close it and it was seconded by Fred Hundt. The public portion was then closed.

Adjournment:

Call for the meeting to be adjourned at 7:05 pm.

Fred Hundt, Board Secretary
